

HAYDAR TAREK

2018, Antwerpen | +32 465 555 708 | heyder206@gmail.com | linkedin.com/in/haydartarek-dev | Driving License B | Own Car

PROFESSIONAL SUMMARY

Java Developer with hands-on experience in full-stack development, specializing in backend engineering, frontend integration, and database management. Skilled in building scalable applications using Spring Boot, React, and MySQL. Passionate about clean code, layered architecture, and delivering reliable software across both large-scale and small-scale projects. Currently seeking a Junior Java Developer or Backend Developer position in Antwerp and nearby areas.

EXPERIENCE

Help Desk | IT Support

N-ID — Iraq

2013 – 2015

- Provided technical support for hardware, software, and network-related issues across the organization.
- Managed user accounts and access permissions using Active Directory.
- Logged, tracked, and resolved incidents using ticketing systems.
- Supported network infrastructure including LAN, WAN, routers, and switches via Remote Desktop.
- Diagnosed and troubleshooted technical issues to ensure system stability and availability.

IT Technician

Scopesky — Iraq

2011 – 2013

- Installed and maintained network infrastructure, cabling, and hardware components.
- Configured and managed routers, switches, and network devices.
- Installed and configured CCTV surveillance systems.
- Diagnosed and resolved network and hardware failures to minimize downtime.
- Maintained stable and secure IT infrastructure across multiple sites.

Store Employee | Cashier

Bvba Gima — Belgium

2017 – 2022

- Delivered customer service and processed payments in a high-volume retail environment.
- Managed stock organization and inventory tracking.
- Worked in a team environment to meet daily operational targets.
- Developed communication, responsibility, and time management skills.

PROJECTS

Full-Stack Java Application — Spring Boot & React

- Developed a full-stack application with a Java Spring Boot backend and a React frontend.
- Designed and implemented RESTful APIs to handle client requests and manage data (GET, POST, PUT, DELETE).
- Implemented CRUD operations connected to a MySQL database using Hibernate / JPA.
- Applied Spring Security for basic authentication and used Lombok to reduce boilerplate code.
- Structured the application using layered architecture (Controller, Service, Repository).
- Managed project dependencies with Maven and version control using Git and GitHub.
- Wrote unit tests using JUnit and tested API endpoints using Postman.
- Dockerized the application for containerized deployment.
- Integrated React frontend with backend REST APIs for form submission and dynamic data display.

EDUCATION

Java Developer — Full-Stack Training Program

Intec Brussels — Belgium

2025 – 2026

Core Curriculum:

- Java SE
- Object-Oriented Programming (OOP)
- Streams
- Spring Boot
- Spring Security
- Hibernate / JPA
- Docker
- Angular
- Scrum
- Maven
- REST APIs
- JUnit
- SQL / MySQL
- JDBC
- Git & GitHub
- HTML, CSS, JavaScript
- Node.js
- Agile

TECHNICAL SKILLS

Languages: Java · SQL · HTML · CSS · JavaScript

Frameworks: Spring Boot · Spring Security · Hibernate · JPA · JDBC · JEE · Lombok · React · Angular

Databases: MySQL

Tools: Maven · Git · GitHub · Docker · Postman · JUnit · Node.js · UML · Active Directory

Methodologies: Scrum · Agile · Layered Architecture · REST API Design · CI/CD (familiar)

CERTIFICATIONS

Enterprise Java Developer — VDAB | Intec Brussels | March 2026

Official competency certificate issued by VDAB. Core competencies rated Professional: Spring Framework, Java, OOP, REST APIs, Application Development with Frameworks.

SOFT SKILLS

Problem-solving · Teamwork & Collaboration · Communication · Time Management · Adaptability · Responsibility & Reliability

LANGUAGES

Arabic (Native) · **Dutch** (Intermediate) · **English** (Intermediate)
